

RiverNet coverage & commercial reach

Prepared for BeyondReach | October 7, 2026 | Approximate planning areas

- Estimated local footprint** 3-mile envelope around monitored sites
- Commercial rooftop inquiry area** Approximately 10-25 miles from our network, depending on location

Both boundaries are distance-based estimates from 32 monitored site locations, not modeled radio coverage.
Commercial service depends on rooftop height, terrain, foliage, line of sight, available capacity and a site survey.
Send addresses for review, including locations outside these areas. No speed or installation commitment is implied.
